

N. Y. LEGISLATORS AROUSED TO NEED OF DRASTIC LAWS CONTROLLING MILK INDUSTRY

Senators and Assemblymen
Tell Evening World They
Favor Regulation.

WANT A COMMISSION.

All Are for a Firm Grip on
Distribution and Prices
in New York City.

By Sophie Irene Loeb.

That legislators are awakening to the vital necessity of passing the milk bill—measures long advocated by The Evening World—is evidenced by the number of telegrams and letters received by this newspaper in answer to a query as to how the New York legislators stand on the question.

One milk bill which would give the city of New York power to pasteurize, buy and sell milk, has already been passed in the Senate. The other bill, which will regulate the price of milk by a commission to be appointed for the purpose will doubtless come before both Houses, as Senator George F. Thompson, who is sponsor of the milk measure, will demand the discharge of the Agriculture Committee from further consideration of the bill.

Among the legislators who have sent communications to The Evening World, showing earnest support of the measures, are the following:

(The only expression opposing legislation to regulate the milk industry came from Margaret L. Smith, Assemblyman.)

LAW MAKERS WHO SEE NECESSITY FOR ACTION.

Senator S. A. Cotillo—I am absolutely in favor of the Thompson bill and all bills that tend to regulate the price of milk from distributor to consumer. I feel that the people of New York ought to receive some relief at the hands of the Legislature.

Senator E. J. Dowling—I am in favor of the Thompson milk bill and cast my vote in favor of the one which passed the Senate and will likewise vote and work for the successful passage of the measure regulating prices.

Senator J. J. Boylan—I was glad to support the Thompson milk bill in the Senate this week and I will work and vote for the passage of the bill creating a commission to regulate prices of milk from distributor to consumer.

Assemblyman William S. Evans—I am in favor of the Thompson milk bill aimed to regulate the milk industry and assure fair prices to consumers.

Assemblyman William W. Pelletier—is absolutely necessary that the Legislature should take some steps which will insure the proper supply of milk to the people of the city at a price which will be fair to both the consumer and the producer. I introduced in the Assembly a bill identical with the Senate bill providing for a State milk commission. I am heartily in favor of this measure as well as one which will permit the municipal authorities, if necessary, to engage in the distribution of milk to the end that the babies and the sick may be guaranteed a regular supply at a fair price.

Assemblyman Sol Ullman—I am heartily in favor of the proposed milk legislation and will do all in my power to facilitate the statutes.

PENDING MILK BILLS SHOULD BE MADE LAWS NOW.

Senator William C. Dodge—As a member of the Senate Committee on Agriculture I was present at the hearing on the milk bill, introduced by Senator Thompson. The arguments advanced against the Municipal Pasteurization Bill were, in my opinion, wholly without merit. As to the State Milk Commission Bill, the representatives of the distributors endeavored to belittle the issues by claiming that the farmers would suffer by the enactment of such a law. This is ridiculous, because the bill provides that the com-
